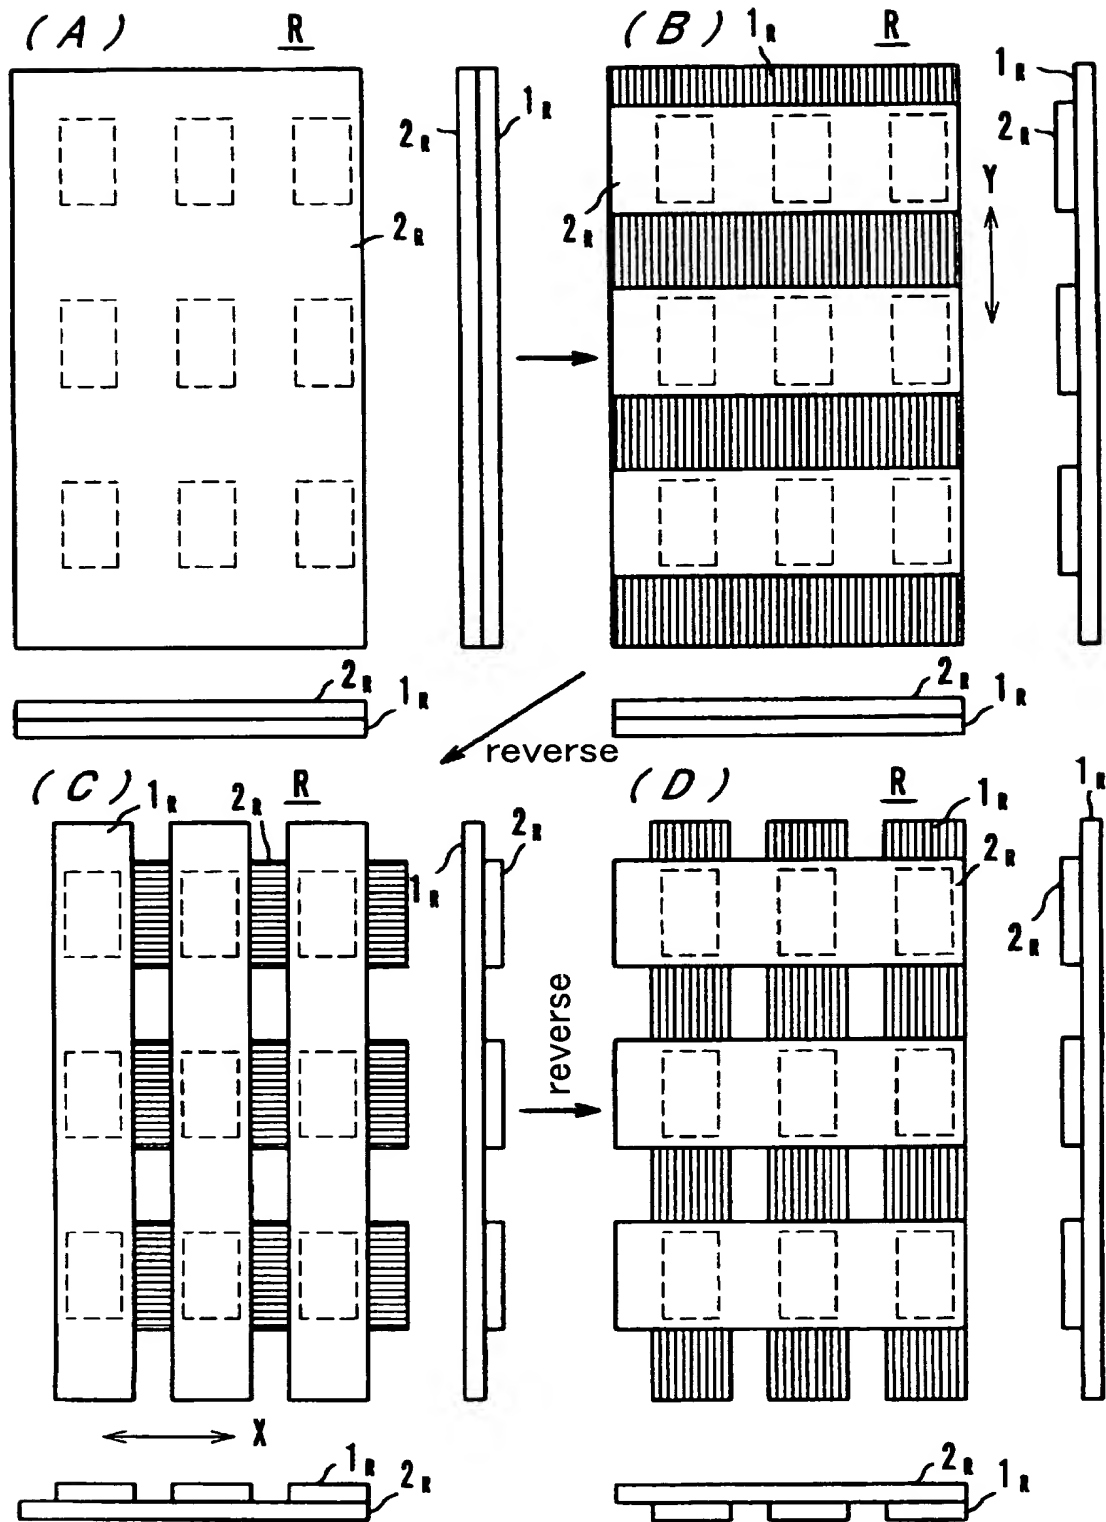

FIG. 10

1. A substrate 100 having a plurality of openings 101. The openings 101 are arranged in a grid pattern. The substrate 100 is made of a material that is transparent to light. The openings 101 are formed by etching the substrate 100. The openings 101 are used for passing light through the substrate 100. The openings 101 are used for passing light through the substrate 100. The openings 101 are used for passing light through the substrate 100.
